Practical Assignment -1

Date – 22/10/2026

Question No	Description	Marks
	Easy Level	
1	Read a file containing student names (one per line) and store them in a list.	**2**
2	Print names longer than 5 characters.	**3**
3	Count how many names start with a vowel	**3**
	Medium Level	
4	Save the filtered names (longer than 5 characters) into a new file.	**2**
5	Sort the list of names alphabetically and print them in ascending order.	**2**
6	Print names that contain the letter `"a"`.	**3**
7	Count word frequency in names (handle duplicates) and store results in a dictionary {name: count}.	**3**
	Difficult Level	
8	**String Analysis** o For each name, print: ▪ Length of the name ▪ First and last character ▪ Whether it is a palindrome	**5**
9	**File + List + String Combined Challenge** o Read names from file → list. o Remove duplicates. o Sort by length (shortest to longest). Write results into `processed_names.txt`	**5**
10	o Read names from file. o Group them by starting letter (e.g., all names starting with A together). o Save each group into separate files (`A_names.txt`, `B_names.txt`, etc.).	**3**
	Total	**30**

Evaluation Rubric

Easy Level

Task	Full Marks	Partial Marks	No Marks
Read file & store names in list	File read correctly, names stored in list	File read but list incomplete/incorrect	No attempt
Print names longer than 5 characters	Correct filtering & output	Attempt made but logic/output partially wrong	No attempt
Count names starting with vowel	Accurate count	Attempt but wrong count/logic	No attempt

Medium Level

Task	Full Marks	Partial Marks	No Marks
Save filtered names into new file	File created & names saved correctly	File created but incomplete/wrong names	No attempt
Sort names alphabetically	Correct ascending order	Attempt but wrong/incomplete sorting	No attempt
Print names containing "a"	Correct filtering & output	Attempt but missed some names	No attempt
Word frequency dictionary	Correct dictionary {name: count}	Attempt but counts incorrect	No attempt

Difficult Level

Task	Full Marks	Partial Marks	No Marks
String analysis (length, first/last char, palindrome)	All checks correct	Some checks correct, others missing/wrong	No attempt
File + List + String combined challenge	Duplicates removed, sorted by length, written to file	Attempt but incomplete (e.g., duplicates removed but not sorted)	No attempt
Group names by starting letter & save into separate files	Groups created & files saved correctly	Attempt but incomplete grouping/saving	No attempt

All the best!
